GOVERNMENT COLLABER

ABOUT ME

Creative and motivated student with a strong interest in graphic design, branding, digital media, and innovation. Experienced in creating posters, thumbnails, presentations, and visual concepts. Passionate about solving real-world problems through design and technology, with hands-on experience leading student projects and building portfolio websites using HTML as a base

EXPERIENCE

Freelance Designer & Content Creator

Developed professional posters, social media creatives, and YouTube thumbnails for various clients. Built personal portfolio websites to showcase artistic and technical work.

Director & Media Producer

School Documentary
Led the direction and visual planning for a school documentary, managing narrative flow and final production.

PROJECTS

Terrasense

A landslide early-warning concept utilizing environmental indicators, sound analysis, and animal behavior sensing for disaster prevention.

Geoshield

Disaster-alert system integrating rainfall monitoring, slope stability tracking, and wireless communication for community safety.

EXTRA CURRICULAR

- Presenter for innovation concepts.
- Active participant in creative competitions and student leadership roles.
- Grateful to have secured a collaboration opportunity with central government authorities, contributing to impactful innovation in disaster management through Terrasense.
